On the 6th instant Mrs. Mary Rogers, the beloved wife of Hon. Laban Mauldin, died at their home on Main street in Easley, in the 71st year of her life. Mrs. Mauldin had not been able for several years past to be very active in her church, but till the last she was bright and cheerful, always ready to do what she could to help in the Master's work. The funeral services were held by Rev. E. V. Babb, assisted by Rev. D. W. Hiett, on the 8th inst., and her body was laid away in West View cemetery amidst tears and flowers. [Advertisement] A Statement

To the Free and Unvarnished Democratic voters of Pickens County, I desire to impart the following information:

Two months ago I had no idea of becoming a candidate for any office in this year's campaign. Early in June, in conversation with a reliable farmer of our county, the suggestion was made that I enter the race for the House of Representatives in the 1914 campaign. Having never sought political preferment by the ballots of my friends and neighbors, the suggestion at that time did not appeal very strongly to me; but as others in whom I have confidence added their request to the first suggestion, I took the question under careful consideration, and today, reader, my announcement of my important office of a membership in the South Carolina House of Representatives appears.

In entering this race I ask of no man or men anything but a fair and careful consideration of the questions that I shall bring before them, and I especially ask that no one of my supporters be come coercive or antagonistic in their attitude toward the friends and supporters of my competitors who shall be in this race with me.

It pleases me to believe that our present officials have to the best of their ability and knowledge reflected the spirit of the great majority in their administration of the law. I am convinced that the great majority, desirous of the power which they will confer, I remain your fellow citizen for good government. W. L. PICKENS.

Announcement

For House of Representatives
Acting under the request of a number of my friends I hereby announce myself as a candidate for the House of Representatives from Pickens county, subject to the rules of the Democratic primary on August 25, 1914. W. L. PICKENS.

Sow More Grain

If every farmer will sow five acres of oats to the plow, and three acres of wheat to the plow, on ground that is well prepared and well fertilized, he will make enough wheat and oats to do him.

The corn crop is likely to be short in this section, as the seasons have not been favorable for making corn. If the war in Europe continues for a long time, there will be a tremendous amount of corn and wheat and oats exported to Europe, and this will make corn, wheat and oats high.

September is a good time to sow oats. Prepare the ground carefully and thoroughly before you get to picking cotton and fertilize it with about 300 pounds to the acre of say, 10-1-3 or 10-1-4, your oats will get well rooted before the cold weather comes on and if sown in the drill it is about as sure a crop as you can plant. These oats will come in early next spring and will help out a short corn crop.

Now and then you hear of a farmer sowing oats in August, and we believe the August sowing always makes a good crop.

September is a capital time to sow oats and we believe it will pay you mighty well to sow some this fall.

It always pays to prepare your land well, and to fertilize it well.
